Textbook: Hebden Chemistry 11 A Workbook for Students ©1998

Course Overview

Practice Assignments: Each chapter in your workbook has practice questions which includes an answer key. You are required to complete and mark the required questions (show your work). These assignments will be graded on completeness, NOT on correct answers.

Tests: At the end of each chapter there is a test, which is to be written in the classroom under supervision. You may bring in a cheat sheet on a single sided 8.5" by 11" piece of paper as well as a periodic table of elements. You may have no help on your test. If you wish to improve your grade on a test, you may do corrections. If you do the corrections on your own you will receive up to an additional 1% per unit on your final course grade (max 9%).
