## Course Overview

**Unit Worksheets:** Each unit has a worksheet to fill out while you read through the chapter. You can pick up these worksheets from your teacher.

**Unit Assessment:** At the end of each unit there is a summative assignment which you may choose one of the two options: either a test or a project. Tests are to be written in the classroom under supervision. Projects are to be designed by both the student and teacher. Projects have the potential to count for more than one unit mark. If you would like to do a project, make an appointment with your teacher.

### Final Course Grade Calculator

Substantial Assignment 7%	X 0.07 =
Unit Worksheets 33%	X 0.33 =
Unit Assessment 60%	X 0.60 =

## Earth Science 11 Chapter List

Chapter	Grade	Date
UNIT 0: Substantial Assignment		
UNIT 1: Stars and Galaxies		
UNIT 2: The Sun and the Solar System		
UNIT 3: The Planets and the Solar System		
UNIT 4: Earth's Moon		
<b>GEOLOGY</b>		
UNIT 5: Rock Formation		
UNIT 6: The Rock Record Timelines		
UNIT 7: The Pre-Cambrian/Paleozoic		
UNIT 8: The Mesozoic / Cenozoic		
<b>PLATE TECTONICS</b>		
UNIT 9: Plate Tectonics		
UNIT 10: Volcanism and Plate Tectonics		
UNIT 11: Earthquakes and Plate Tectonics		
UNIT 12: Mountains and Plate Tectonics		
<b>WEATHERING AND EROSIONS</b>		
UNIT 13: Weathering and Movement		
UNIT 14: Running Water		
UNIT 15: Glaciers		
UNIT 16: Wind, Waves and Currents
