

UNITY

UNITY SHOWS WHAT THINGS HAVE IN COMMON, HOW THEY ARE ALIKE.

UNITY IS THE THING THAT JOINS THE PARTS TOGETHER.

SAMENESS... ONENESS...

Uniforms show we are joined as a team.

In art, the elements work together, fit together, in the artwork so it looks complete (some art looks more unified than other art).

Tints (white added)

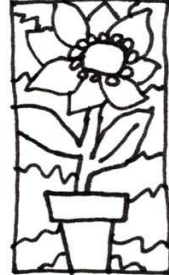

Analogous colors (neighbors on the color wheel)

Shapes unify.

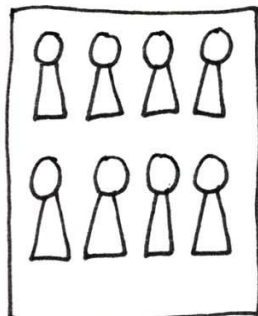

Line unifies.

Black line unifies.

Repetition of line, shape or color can unify an image.

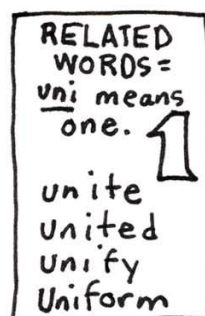

Uniform - united by size and shape

Not uniform - a variety of size and shape.

When people join hands and unite, they become stronger.

White line unifies
